INDEPENDENT CONSULTING PRACTICE • DIRECT CLIENTS & MICROSOFT PARTNERS

WHO WE HELP

Page Enterprise Solutions helps manufacturing and distribution organizations get more value from Microsoft Dynamics 365 Finance & Operations, business intelligence, and workflow automation. We focus on practical diagnosis, operational improvement, and usable solutions—not unnecessary complexity.

CORE SERVICE CAPABILITIES

- Dynamics 365 F&O — functional troubleshooting, production control, PFE, MRP, inventory, purchasing, quality management, intercompany, and security/access review.
- Manufacturing & supply chain — process analysis, production and inventory visibility, issue resolution, user training, and operational documentation.
- Power BI & SQL — operational dashboards, KPI design, data modeling/reporting, refresh investigation, and manufacturing/supply-chain insights.
- Power Platform — Power Automate workflows, notifications, SharePoint-based automations, and targeted Power Apps / Copilot Studio support.

ENGAGEMENT OPTIONS
